

Project Management – the Complete Guide

Delivery:	Traditional classroom
Course No:	PMN6-110
Duration:	3 days
Credits:	21 PDUs/contact hours or 21 CPDs

Prerequisites: None

Course Level: Intermediate/advanced

About this course

This intensive course provides project managers and teams with the practical skills needed to effectively manage projects in a form suitable for immediate application to the workplace.

The course reviews all the topics in the latest edition of the Guide to the Project Management Body of Knowledge (*PMBOK® Guide¹ Sixth Edition*) and applies them to case study-based team exercises. However, it is not designed as a specialised exam preparation course and does not provide practice exams. All attendees are given a personal copy of the *PMBOK® Guide* and it is used in the course.

Who should attend?

Project Management – the Complete Guide is a course designed for project managers and team members with some hands on experience who wish to learn more about Project Management principles and understand current best practices.

Learning outcomes

The course covers the activities in each of the 5 processes of Project Management, namely Initialising, Planning, Executing, Controlling and Closing.

Participants will learn how to:

- Collect requirements and define scope, and manage change
- Develop a realistic schedule which meets the stakeholders' constraints
- Develop project cost estimates and control project budgets
- Prepare a project management plan
- Identify and manage risks which could impact a project
- Develop accurate and meaningful status reports
- Establish a project's quality objectives and appropriate controls and measures
- Manage project stakeholders to ensure they remain committed and supportive
- Control project suppliers and external stakeholders

¹ **Acknowledgement:** PMI, the PMI logo, PMP, CAPM, PMBOK and the PMI Registered Education Provider logo are the registered marks of the Project Management Institute, Inc.

- Build effective teams which are committed to the project goals
- Determine and acquire appropriate project resources
- Understand the social and professional responsibilities of a project manager

Learning approach

The Course Director will use a variety of interactive methods during the course, including:

- Group brainstorming and discussions
- Team exercises and presentations
- Case study problem-solving
- Suggested evening assignments and readings

Short breaks will be provided for lunch and refreshments.

Course materials provided

Each attendee will receive:

- Complete set of presentation slides
- Comprehensive reference work book
- Suggested solutions to case study exercises
- A personal copy of the *PMBOK® Guide*
- A certificate of attendance confirming PDUs (contact hours) earned
